VİSVANA Company manufactures various types and sizes of Globe, Gate, Globe, Check and Plug Valves in İSTANBUL/TURKEY. The dimensional and visual inspection of the production line, along with the comparison of material certificates' heat numbers, was provided by the KUTCERT inspector using test samples from different types of valves.

The test data and report in the material certification were compared with the ASME B16.34 and ANSI/NACE MR0175:2015 / ISO 15156:2015 standards.

The test results were found to be satisfactory. This certificate was issued upon customer request
